Human Aspects In Water Problem

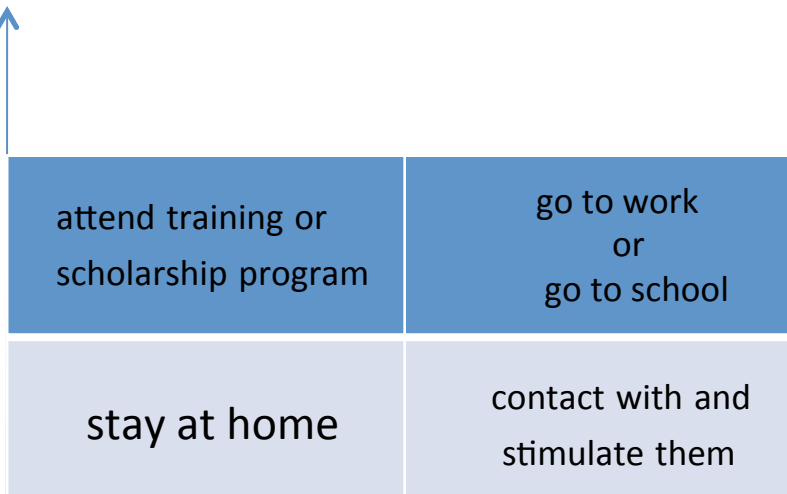

Professional water collection to emancipate work forces

Employment and schooling solutions

Employment & schooling willingness

Economics statement/job expertise

Other problems

1. Problems of toilets

(1) Low density in communities.

(2) No sex separation in school toilets causes embarrassment

2. Safety and order in watering spots.

3. Advanced technologies fail at an early stage and waste some money.

Focus on Water

1. Sanitation problems

- ▲ public latrines
- ▲ portable barrels

2. Purification problems

cactus

Final Control

Activity based costing

We run the projects matrix model and every functional department provides a sort of activity.
